DOCTOR! THE TARDIS IS BLOWING AWAY! DID YOU CHECK THE WEATHER FORECAST BEFORE HEADING OUT?
I DIDN'T THINK I NEEDED TO, CLARA! PHABEDES HAS THE MOST STABLE CLIMATE IN THE GALAXY!
THE SIX MOONS OF PHABEDES ARE SUPPOSED TO KEEP THE WEATHER CALM...
... AS THEY CHANGE POSITION, THE WEATHER CHANGES.
"AND I THINK I SEE THE PROBLEM..."
"... SOMETHING IS MOVING THEM!"

YOU'RE LUCKY I SAW YOU. GRAB HOLD OF THIS! THERE'S A BUNKER NEARBY!
THANK YOU!
WHY ARE THOSE CREATURES MOVING THE MOONS?
I THINK THEY'RE TRYING TO DESTROY US SO THEY CAN INVADE PHABEDES!
HMM... PERHAPS NOT. THERE'S AN OLD LEGEND ABOUT THE MOONS OF THIS PLANET.
DO YOU HAVE A RECORD OF HOW THE MOONS HAVE BEEN MOVED? SHOW ME.
HMM...
I THINK THAT'S RIGHT.

OPEN THE HATCH, PLEASE.
WON'T THE STORM TEAR IT APART?
NOPE – I'M GOING TO GIVE IT A LITTLE PROTECTION...
... AND A BOOST!
WHOOOOOSH
VREEEEE
?
YES – LOOK! THEY'RE MOVING THE MOONS INTO THE POSITIONS I SHOWED THEM!
BUT HOW WILL THAT HELP? THE STORMS WILL STILL GO ON.

"AHA - BUT THE STORMS ARE JUST A SIDE EFFECT! WHAT THEY'RE REALLY TRYING TO DO..."
"... IS UNLOCK THE WAY HOME!"
KER-CHUNK
IS THIS TO DO WITH THE LEGEND ABOUT THE MOONS?
THE MOONS WERE A PUZZLE TO OPEN A GATEWAY TO THEIR HOME INSIDE THE PLANET - THEY'D FORGOTTEN THE SOLUTION, THAT'S ALL!
SO NOW WE JUST HAVE TO FIND THE TARDIS...
WELL, YES. BUT IT'S A LOVELY DAY FOR A STROLL!
MORE ADVENTURES NEXT TIME!
